Chair's Welcome to the Annual General Meeting:

Fellow Shareholders welcome to the Rimfire Pacific Mining Limited Annual General Meeting.

The last twelve months has been a testing time for many Australians including those in the mining industry. The COVID 19 pandemic caused many disruptions and raised challenges particularly around logistics, staffing and health and safety programs. As New South Wales was recovering from the worst of the pandemic it was hit by floods with another batch of severe storms and heavy rain ravaging the state in the past few weeks. The recent rains and floods have impacted the region around our leases in the Fifield area and stopped any exploration work.

During the past year we have welcomed David Hutton as our new Managing Director. David has instilled an increased rigour and economic focus to our exploration team's efforts. The Company has delivered some promising exploration results, particularly at the Critical Minerals targets at Melrose.

The next twelve months we will see significant exploration activities in our farm-in areas of Avondale (Critical Minerals) and Sorpresa (Copper, Gold, PGEs) but also new exploration activities at our 100% owned areas at the Valley, Cowal and the now 100% owned and controlled cobalt prospects at Broken Hill.

In addition, as opportunities arise the Company will look to acquire Critical Mineral and Copper/Gold leases in and around our existing areas of interest being the Lachlan Orogen and Broken Hill districts.

Finally, I would like to thank our management and staff for their efforts over the last year as well as my fellow directors, our Farm-In partner Golden Plains Resources and most importantly our shareholders for their continued support.
