

Drilling Commences at Fifield Exploration Licences

Highlights

- ✓ Drilling commences at Rimfire's Fifield Exploration Licences.
- ✓ Drilling program commences with RC drillhole at the Northern Gold prospect.
- ✓ Aircore drilling at the Northern and Southern Areas will be next.
- ✓ Results of drill programs expected to be released from end of October 2019.

Rimfire Pacific Mining NL ("Rimfire", "Company"; ASX Code "RIM") advises that the planned drilling program for the Northern Gold, Northern and Southern Areas is underway with RC drilling in progress at the Northern Gold prospect.

The RC drilling program at the Northern Gold prospect, which is 2km north of Sorpresa, is designed to test the bedrock beneath a +400m long x 80m wide zone of historical mine pits. The results at Northern Gold program could have a significant impact on options for the monetisation of Sorpresa.

The Aircore drilling at the Northern and Southern Area prospects is designed to obtain regional bedrock lithological, geochemical and alteration samples from the highly prospective Northern (40km²) and Southern (100km²) areas where there is potential for a significant size (> 1Moz gold +/- 1Mt copper) discovery.

The results from this drilling campaign will gradually become available towards the end of October 2019.

Rimfire Managing Director Craig Riley states:

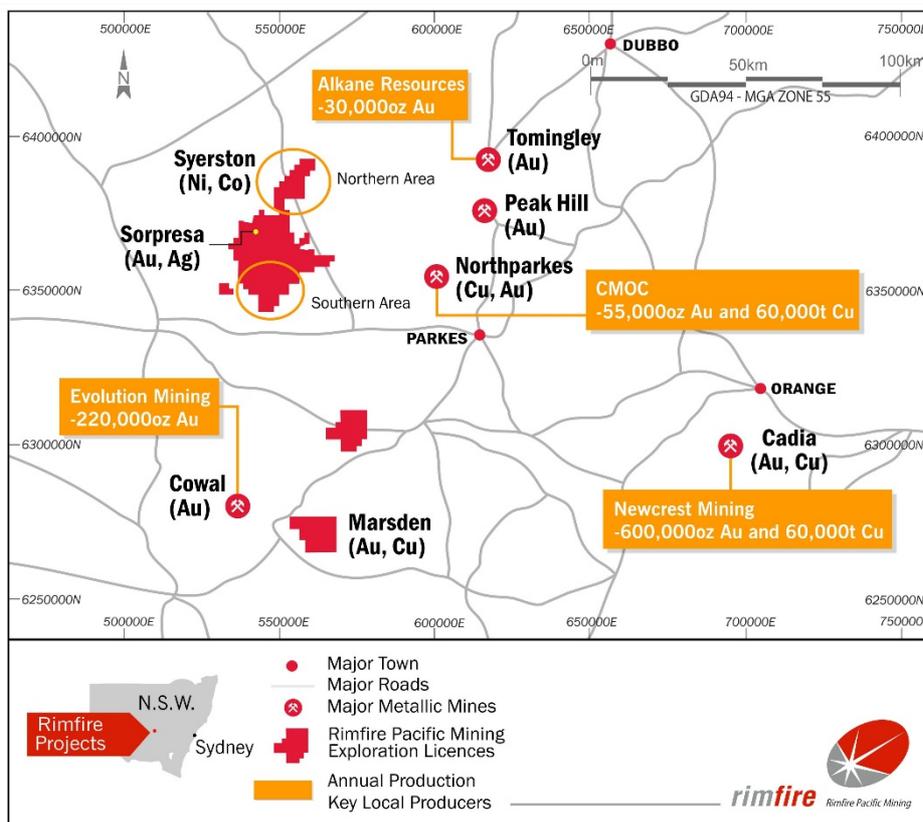

"The commencement of this drilling program with initial RC drill testing of the Northern Gold Prospect represents a significant milestone as it will be the first bedrock drill test of this extensive 400m strike length zone of historical gold mineralisation. The results of this work has the potential to represent a new zone of gold mineralization in the Sorpresa area at Fifield."

Craig Riley
Managing Director

ABOUT RIMFIRE

Rimfire Pacific Mining (RIM) is an ASX listed resources exploration company with its major focus at Fifield in central NSW, located within the Lachlan Transverse Zone (LTZ). In 2011 the Company made a greenfields discovery, named “Sorpresa”, announcing a JORC Inferred & Indicated Maiden resource in 2014. The information provided in “About Rimfire” is available to view on the company’s website: [ASX Announcements](#).

Figure 1: Location Plan Rimfire Exploration Licences and Project Areas

Rimfire is exploring for a major copper / gold or gold mineralised system such as at Northparkes (Cu/Au) or Cowal (Au) on 915km² of Exploration Licences 100km west of Parkes in central NSW. Multiple prospects with potential for further gold discoveries exist in the area around Sorpresa which are part of Rimfire’s 681km² contiguous tenements. Rimfire also holds two exploration licences covering 234km²; located 40 to 60kms south of the Fifield Project, in a prospective area now part of a moratorium associated with the MinEx Cooperative Research Centre program (minexcrc.com.au)

Forward looking statements Disclaimer:

This document contains “forward looking statements” as defined or implied in common law and within the meaning of the Corporations Law. Such forward looking statements may include, without limitation, (1) estimates of future capital expenditure; (2) estimates of future cash costs; (3) statements regarding future exploration results and goals. Where the Company or any of its officers or Directors or representatives expresses an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and the Company or its officers or Directors or representatives as the case may be, believe to have a reasonable basis for implying such an expectation or belief. However, forward looking statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward looking statements. Such risks include, but are not limited to, commodity price fluctuation, currency fluctuation, political and operational risks, governmental regulations and judicial outcomes, financial markets and availability of key personnel. The Company does not undertake any obligation to publicly release revisions to any “forward looking statement”, or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.
